

## WP 3 Urban Development

**Baltic Sea Region**  
Programme 2007-2013

Part-financed by the European Union  
(European Regional Development Fund  
and European Neighbourhood and  
Partnership Instrument)

## WP3 - Questionnaire

**Petra Reinecke**

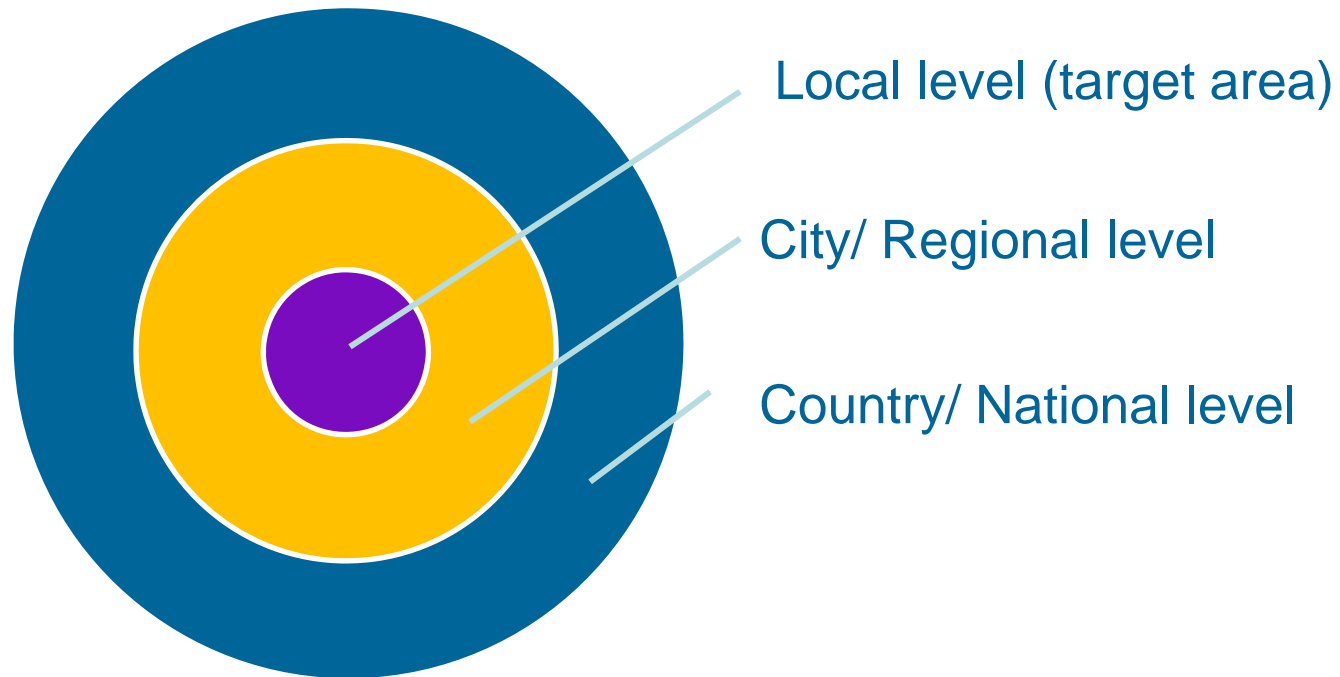

B. & S.U. Beratungs- und Service-  
Gesellschaft Umwelt

16-18 September 2009 – Jelgava/ Siauliai

# Extract from the questionnaire

URB Energy		Energy Efficient and Integrated Urban Development Action						
Dieses Projekt wird darüber hinaus durch das Bundesprogramm "Transnationale Zusammenarbeit" der Bundesministerium für Verkehr, Bau und Stadtentwicklung gefördert.								
Partner:								
Region:								
Date:								
		Status and Trends	Example Status and Trends	Problems/ Needs	Example problems/ Needs	Potentials	Good Practice	
<b>I. Local level - quarter/ neighbourhood</b>								
Local framework	Describe legal and political framework/ policy and local level	Planning principles, EEP, EE, RES requirements		e.g. renewal initiatives are almost exclusively executed at the level of home- and building owners/ municipalities e.g. binding land-use plans existing and including energy aspects		e.g. no specific normative acts or development plans for this district		
		Energy strategies		e.g. quarter development and management is ecologically... e.g. separate local pilot projects/ energy concepts etc. e.g. major initiatives are projects				
		Specific public and intermediate institutions dealing with energy and climate protection						
		Energy efficiency						
General	Location and function	In the city		e.g. situated in the centre of the city...				
		Area		e.g. 90 hectares				
		Local classification		e.g. mixed residential area				
		Tasks and functions within the city		e.g. residential area for the people who work for the... company in the adjacent quarter e.g. supply centre for services, retail, education/ for the adjacent area e.g. only dormitory quarter				
Demography	Number of inhabitants			e.g. with... inhabitants (2008) e.g. % due to ... e.g. especially in the quarters...		e.g. more affluent sections of the population moving away, leaving less income residents behind, above-average share of residents with ethnic minority background, etc. e.g. very high density housing environment for residential area		
		Population density		e.g. ... population density per ha in 2008				
		Net migration (difference of immigrant and emigrant per 1,000 inhabitants)		e.g. 45, 000 in 2008 e.g. % due to...				

# Structure

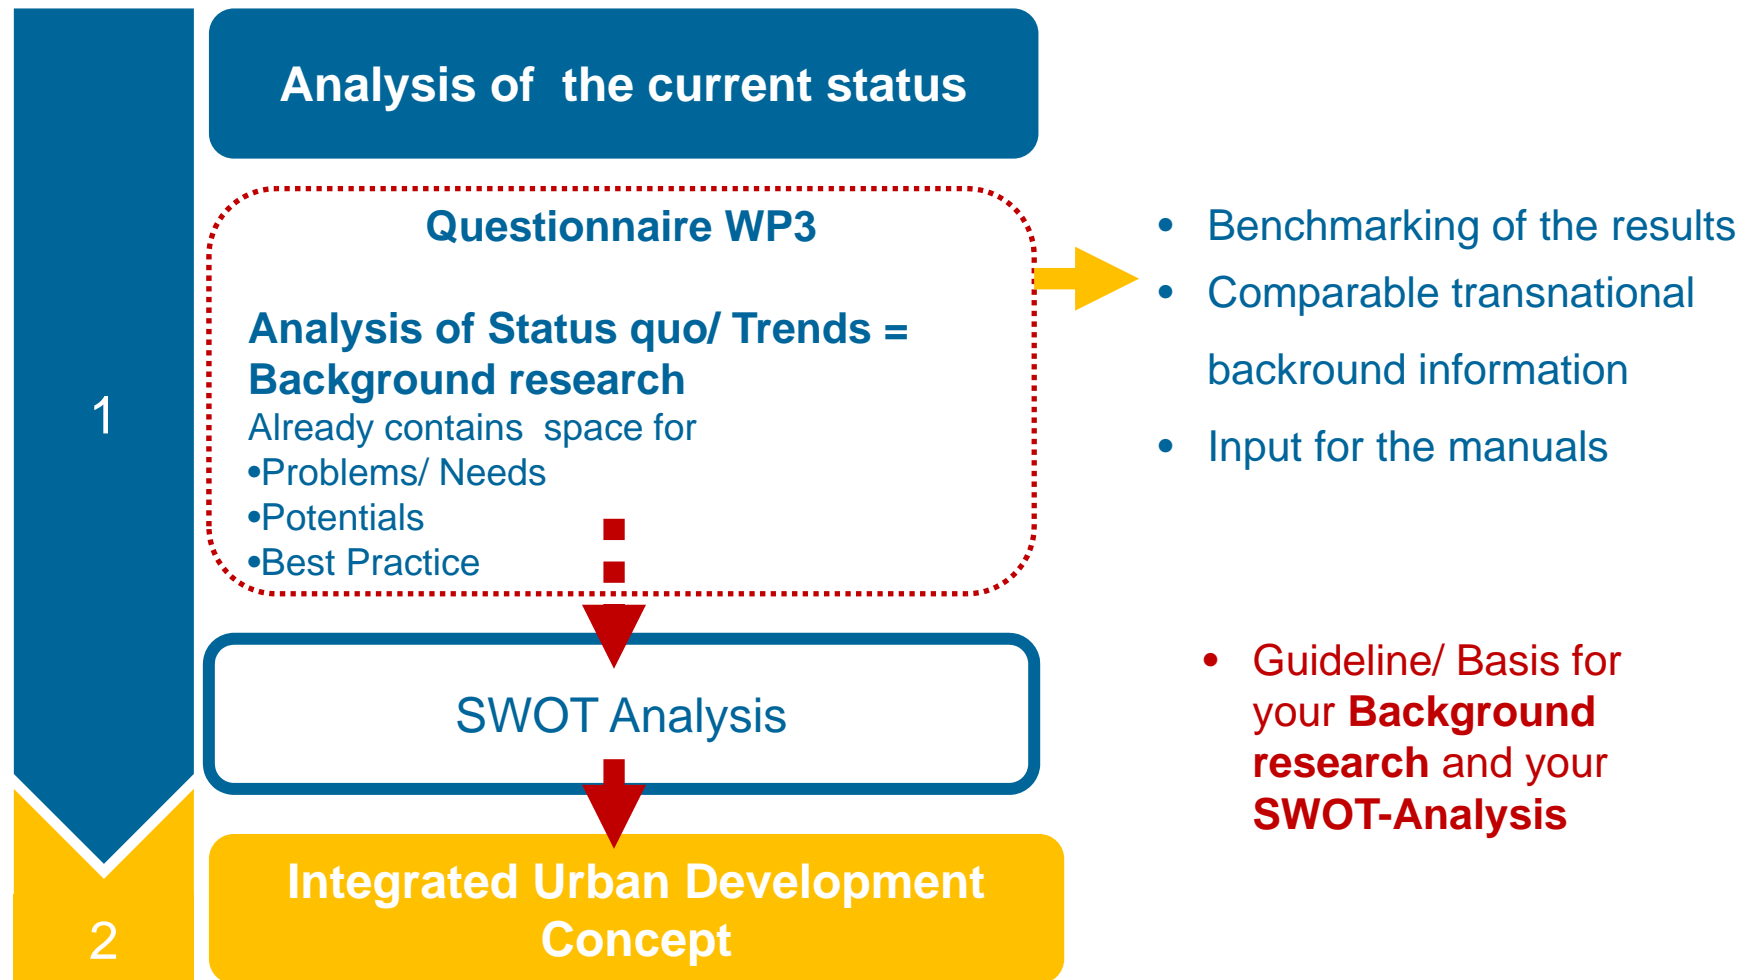

# Structure

Demographic development

- Economic development
- Housing market
- Energy consumption
- Efficiency of infrastructure
- Mobility/ traffic
- Impact on the cityscape
- Municipal financing

# Purpose

# Who ?

has to fill in the questionnaire

- **Target Areas**  
(Grodno, Jelgava, Piaseczno, Rakvere, Riga (Jugla), Siauliai)
- **Berlin**  
for the neighbourhoods „Kaselkiez“ and „Frankfurter Allee Süd“
- **Brandenburg**  
for one Best Practice Example

# Returning of the questionnaire

15. November 2009
