Partnership Instrument)

Integrated Urban Development and the Brandenburg Strategy for Climate Protection

Peter Busch

Brandenburg Ministry of Infrastructure
and Agriculture

Warsaw Mid-Term Conference

The Brandenburg ,Programme for Climate Protection and Energy‘

- The parliament proclaims the task:
 - Updating the Brandenburg Climate Protection Strategy (March 2010)
 - Priority on
 - Quantifiable Measures
 - Regionalisation – Regional and Local Energy Concepts
 - Local Solutions – SME and Cooperations in Housing and Industry
 - Priority on Private Households as end-users
 - Competetitive Search for Good Solutions

Priority on Private Households

- Incentives for energy saving heating and insulation
- Communication Strategy to convince citizens
- Negotiated Objectives on energy consumption and renewable energy sources
 - for housing companies
 - for energy providers
- Continuous Benchmarking and discovering new technological trends
- Development of an approved Quality Standard
- Continuous reporting to parliament from 2010 onwards

Benchmarking and discovering new technological trends

- **Decentral Energy Storage – in collaboration with municipal housing providers**
- **Swarm Technology of Small Co-Generating Units (Electricity and Heat)**

Toolkit for Climate Protection in Brandenburg
